Navy Cash™ E-Commerce Features

Navy Cash™ Electronic Banking

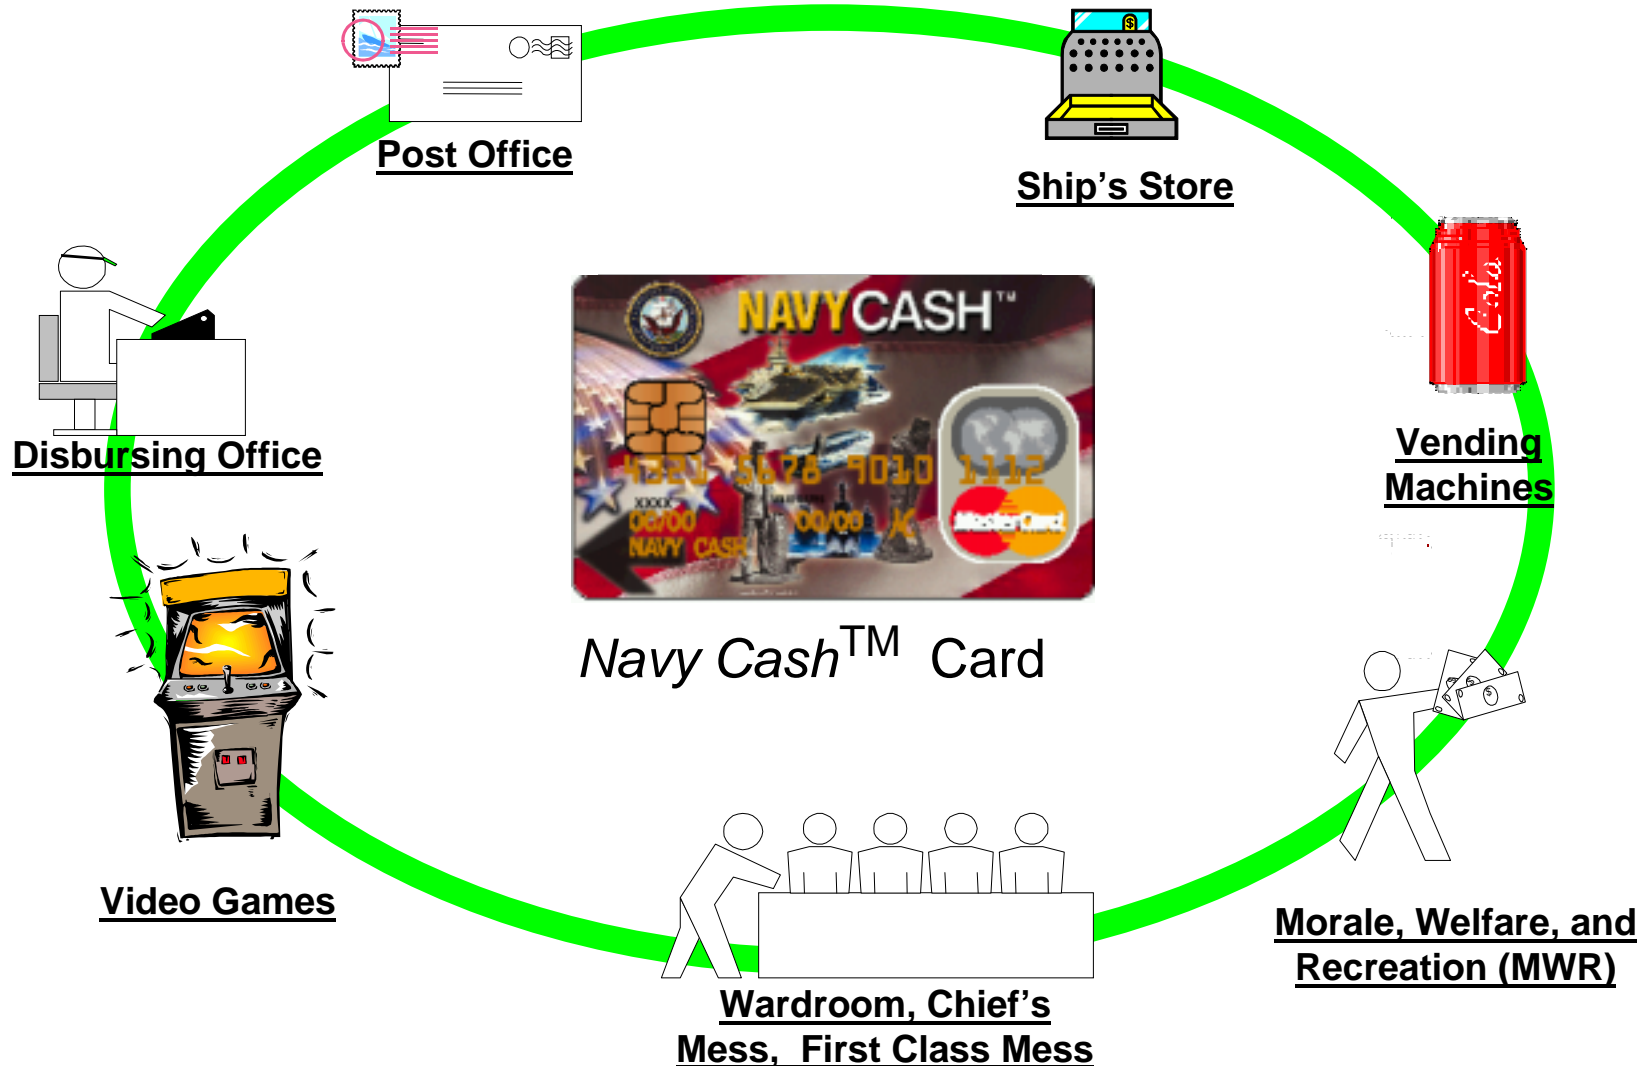

- Electronic Purse to eliminate cash handling
- Access to stateside financial institutions
- Military E-Checking to reduce check processing ... a future enhancement
- Point of sales devices
- Automated cash management reports

Transferable financial debit card to be used ship to ship, ship to Navy bases and commercially accepted worldwide.

Navy Cash™ E-Commerce Integrated Cash Management Application

Distance Disbursing

Goal

Migrate pay and travel disbursing functions from ship to shore

Phase I: Disbursing Off Ships

- USS BON HOMME RICHARD and USS TORTUGA were first two prototype ships
- Ran from Dec 99 to Apr 00

Distance Disbursing

Prototype Expansion

- **Phase II: Added 3 Additional Ships**
 - CINC's provided labor and on-site management
 - ADP support and communications infrastructure upgraded
 - Tested synergy and impact on manning
 - Ran from May to Sep 00
- **Phase III: Pay and Personnel Ashore (PAPA)**
 - Plan to prototype in late FY01/early FY02
 - Plan POM-04 Budget Submission

Summary

Navy Cash™ will provide a cashless environment on ship, reducing cash handling and automating reports

Distance Disbursing: Moving Pay and Travel ashore will increase timeliness and accuracy

Improved QOL via reduced workload and streamlined processes
